

Tiranga Infrastructure Pvt. Ltd.

# Company Profile Presentation 2025

Baramati-Pune – Maharashtra Contact:

7769056555 / 7720818111

# Who We Are

Tiranga Infrastructure Pvt. Ltd. (TIPL) is an emerging construction company known for reliable execution and strong core values. The journey began in 2018, when Ranjit Shinde started undertaking PWD and ZP road and building works in Baramati, Phaltan, Satara, and Daund, along with subgrade projects for major firms like ME IL, Desai Construction, and Thakur Infra projects.

Growing in capability and scale, the firm was incorporated as TIPL in July 2021. Today, we operate across Maharashtra delivering projects in road construction, water supply systems, and fabrication & erection works.

With expertise across design, planning, development, construction, and maintenance, TIPL is committed to quality, integrity, timely delivery, and customer satisfaction, making it a trusted name in the civil infrastructure sector.

# Our Expertise & Specializations

Tiranga Infrastructure brings unparalleled expertise to every project, ensuring superior quality and innovative solutions that set us apart in the industry.

## Certified Excellence

Adherence to national and international standards, backed by robust technical certifications across all operations.

## Quality Assurance

Rigorous quality control checks at every stage, from material sourcing to final project completion.

## Innovation & Technology

Leveraging cutting-edge technology and modern methodologies to enhance efficiency and project delivery.

## Safety & Sustainability

Strict safety protocols and environmental stewardship are paramount in all our construction practices.

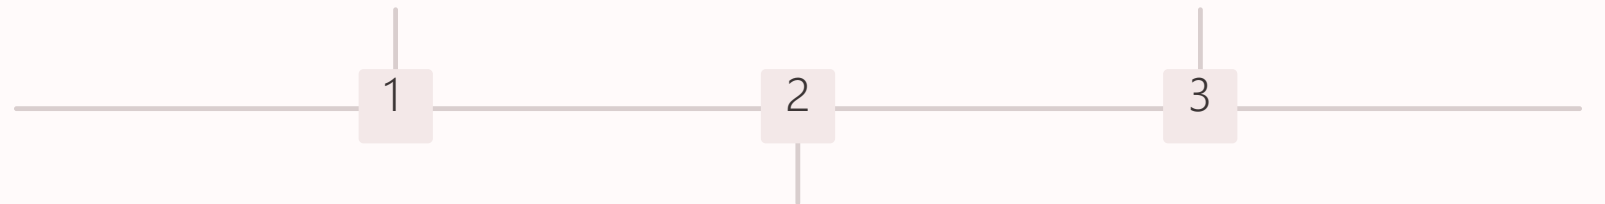

# Our Journey & Values

## 2018 – Foundation Phase

Established M/s Tiranga Infra by Mr. Ranjit Shinde with an initial focus on road and construction projects for Public Works Department (PWD) and Zilla Parishad (ZP).

## Today

TIPL is recognized as a trusted, experienced, and high-performing construction partner, dedicated to delivering excellence in every project.

## 2021 – Expansion Phase

Converted into a Private Limited company in July 2021, rebranding as Tiranga Infrastructure Pvt. Ltd. (TIPL). Initiated work on larger infrastructure and National Highway projects.

# Our Quality Objectives

Tiranga Infrastructure is committed to achieving measurable quality goals that drive our growth and ensure excellence in every aspect of our operations.

## Construction Turnover

Achieve a **25% annual increase** in construction turnover.

## Real Estate Projects

Expand the user-base in Real Estate Projects by **25% annually**.

## Jal Jeevan Mission

Increase work related to the Jal Jeevan Mission by **50%**.

## Employee Training

Provide training to at least **20% of employees** every six months.

## Roadside Plantation (CSR)

Implement Roadside Plantation under CSR initiatives and ensure regular maintenance.

# Our Key Strengths

Tiranga Infrastructure's core competencies and competitive advantages are built on a robust foundation of technical excellence, streamlined processes, and a highly skilled workforce, enabling us to deliver superior results.

## Technical Strengths

- Integrated in-house project execution capabilities.
- Utilisation of modern machinery and advanced equipment.
- Team of expert civil engineers, supervisors, and operators.
- Specialization in PQC, DLC, and sealant applications.

## Process Strengths

- Robust planning and effective project management.
- Proven capability for rapid project execution.
- Unwavering commitment to zero compromise on quality.
- Ensuring 100% transparency in all work processes.

## Human Resource Strengths

- Highly trained and experienced workforce.
- Culture of teamwork, collaboration, and accountability.
- Proactive problem-solving mindsets within the team.

# Our Leadership

At Tiranga Infrastructure, our journey is guided by the visionary leadership of our founder, founder, whose dedication and expertise has been instrumental in shaping our success and driving our commitment to excellence.

## Mr. Ranjeit Shinde Founder

**Mr. Ranjeit Shinde** has completed a Post Graduate Program in Infrastructure Project Management from IIM Visakhapatnam and holds an MBA in Construction Management. With over 8 years of experience in the construction industry, he specializes in concrete technology and has worked with several reputed companies as a marketing and technical professional. His expertise includes providing solutions for concrete mix design optimization, and advanced repair techniques for concrete structures.

**Vision:** His strong technical background and leadership significantly contribute to TIPL's growth, quality standards, and project excellence. Driven by a commitment to integrity, honesty, and fairness, his vision is to foster growth opportunities for employees, business partners, and the community, while significantly contributing to national infrastructure development through sustainable practices.

# Recognition & Achievements

Tiranga Infrastructure prides itself on a legacy of excellence, marked by significant recognition and milestones that underscore our unwavering to quality, innovation, and impactful contributions to India's infrastructure landscape.

## A Moment of Honour and Appreciation

During their recent meeting, the Hon'ble **Minister of Road Transport and Highways of India, Nitin Gadkari**, appreciated the work and dedication of **Mr. Ranjeit Shinde**, Director of *Tiranga Infrastructure Pvt. Ltd.* He acknowledged the quality, commitment, and contribution demonstrated by Mr. Shinde in the field of infrastructure development.

On this occasion, **Mr. Ranjeit Shinde expressed his gratitude** by presenting a floral to the Minister and reaffirmed his commitment to continue contributing towards the nation's growth and infrastructure progress.

## Other Key Recognitions

### Industry Awards

Recipient of several industry accolades for project execution and ethical business practices.

### Certifications & Compliance

Adherence to national and international quality and safety standards, holding all necessary certifications.

### Client Partnerships

Building long-standing relationships with government bodies and private clients through consistent delivery.

# Our Core Values & Principles

At Tiranga Infrastructure, our operations are guided by a strong foundation of principles that ensure excellence, integrity, and sustainable growth. These values shape our culture, decisions, and commitment to all stakeholders, reflecting our dedication to national infrastructure development and community well-being.

## Integrity & Transparency

Upholding the highest ethical standards, fostering trust, and ensuring complete openness in all our dealings, from project planning to execution.

## Quality Excellence

Committing to superior workmanship, rigorous quality control checks, and innovative solutions that consistently exceed industry benchmarks and client expectations.

## Customer Satisfaction

Prioritizing client needs, delivering projects on or ahead of schedule, and ensuring total satisfaction through proactive communication and responsive service.

## Innovation & Growth

Continuously leveraging cutting-edge technology and modern methodologies to enhance efficiency, drive innovation, and achieve holistic organizational development.

## Environmental Responsibility

Practicing strict environmental stewardship, implementing sustainable construction practices, and contributing to ecological balance through initiatives like roadside plantations.

## Employee Development

Providing continuous growth opportunities, extensive training, and a supportive environment for our workforce, recognizing them as our most valuable asset.

# Our Services

Tiranga Infrastructure is committed to delivering comprehensive infrastructure solutions, leveraging our expertise to bring your vision to life with precision and excellence across diverse civil engineering domains.

## Road & Highway Construction

- PQC (Pavement Quality Concrete) laying
- DLC (Dry Lean Concrete) laying
- Crack and pavement joint sealing
- Full-depth cutting for rejected panels
- Hard texturing and concrete repair works

## Civil & Structural Work

- Construction of bridges and flyovers
- Drain canal construction
- Development of townships and commercial complexes
- Industrial civil works

## Water Supply & Tank Work

- Overhead tank construction
- Pipeline installation
- Retrofitting and jointing
- System testing and commissioning

## Fabrication & Erection

- Material and labor-based fabrication services
- Installation of heavy steel structures

## Project Management & Consultancy

- Feasibility studies and site analysis
- Cost estimation and budget control
- Project scheduling and resource allocation
- Risk management and quality assurance

# Our Capabilities & Resources

At Tiranga Construction, our strength lies in our robust capabilities, extensive equipment fleet, and strategic partnerships. We leverage our diverse resources to deliver superior infrastructure solutions, supported by our dedicated subsidiaries and a wide network of trusted clients. Our commitment to excellence is reflected in every project we undertake, from advanced machinery to skilled personnel.

## Major Clients

We are proud to partner with leading names in the construction industry, a testament to our reliability and quality of work. Our collaborations ensure successful project delivery and contribute to sustainable infrastructure development.

# Our Subsidiaries

Tiranga Infrastructure is more than just a construction company; we are a diversified group committed to holistic development. Our strategic subsidiaries extend our impact beyond infrastructure, contributing to education and specialized services, thereby strengthening our overall business strategy and fostering community well-being.

## Tiranga Infrastructure Pvt. Ltd.

Our core civil construction arm, specializing in diverse infrastructure projects, including roads, highways, bridges, and industrial civil works. This subsidiary drives our primary mission of building robust national infrastructure.

## Tiranga College of Design

A specialized educational institution focused on animation and design disciplines. This venture supports creative industries and develops skilled professionals, contributing to a diverse workforce and technological advancement.

## Tiranga Public School

Providing quality primary and secondary education to foster future generations. Through this subsidiary, we invest in foundational learning, empowering young minds and contributing directly to community development and societal progress.

These subsidiaries are integral to Tiranga's vision, complementing our main construction business by nurturing talent, enhancing community services, and providing avenues for sustainable growth. They collectively demonstrate our commitment to building not just structures, but also a brighter future for all.

# Our Equipment & Machinery

At Tiranga Construction, our strength lies in our robust capabilities and extensive equipment fleet. We leverage our diverse resources to deliver superior infrastructure solutions, supported by advanced machinery and skilled personnel.

## Heavy Construction Equipment

- Stone Crusher 200TPH
- Mechanical Sprayer for uniform application
- Paver Finisher with Electronic sensor for precision
- Vibratory Rollers (2 units)
- Power Rollers (2 units)
- Excavators (5 units)
- Hyva (14 units for heavy lifting)
- Graders (2 units)
- Water Tankers (4 units)
- Tractor Trolleys (6 units)

## Concrete & PQC Specialised Machines

- PQC Cutting Machines
- Full-depth Cutting Machines
- Dowel Bar Cutting Machines
- Concrete Mixer Machines
- Vibrators (Electric & Diesel models available)

## RMC & Utility Support

- RMC Plant – CP30 model for Ready Mix Concrete
- Mud Pumps for dewatering
- Water Pumps (5–10 HP range)
- DG Sets (15 KVA, 25 KVA for power backup)

## Centring & Shuttering Material

- Over 2700 Shuttering Plates (various sizes)
- Comprehensive Cuplock Systems
- U-Head Jack / Base Jack supports
- MS Round Shuttering components
- Assorted Channels, angles, and girders
- Bracket and Haunch panels

## Fabrication & Welding Equipment

- Oxygen cylinders
- LPG cylinders
- Heavy-duty Cutting Machines
- Advanced Welding Machines
- Precision Granite Cutters

# Why Choose Us

## Experienced Workforce

Our team brings years of expertise and technical knowledge to every project, ensuring superior execution and problem-solving capabilities.

## High-Quality Standards

Zero compromise on quality with 100% adherence to project quality standards and continuous improvement culture.

## Strong Machinery & Technical Capability

Leveraging state-of-the-art equipment and advanced technical capabilities to ensure efficient and high-quality project execution.

## On-Time Delivery

We pride ourselves on meeting deadlines without compromising quality, with a proven track record of timely project completion.

## Complete Infrastructure Solutions

From roads to water supply, structural work to fabrication – we offer end-to-end infrastructure solutions under one roof.

## Transparent Work Process

100% transparency in all operations, maintaining integrity, honesty, and fairness in every business relationship.
